## DATA PROTECTION OFFICER

## DPO AS A SERVICE

Since the introduction of the General Data Protection Regulation (GDPR) on May 25, 2018. It has been mandatory for several organisations to appoint a Data Protection Officer (DPO).

### DATA PROTECTION OFFICER

A Data Protection Officer is a privacy expert who advises, informs and oversees compliance with the GDPR. The DPO is also the contact person with the national supervisor for your organization. The role of DPO should be performed by a person who can perform these tasks independently. The function must be arranged in such a way that there is no conflict of interest with any other tasks and responsibilities of the person concerned in your organization. The DPO is therefore an advisor and supervisor for all matters relating to the GDPR.

### DPO AS A SERVICE

This obligation requires quite a lot from an organization. Does the organization employ someone specifically for this or outsource it? There are several possibilities for this:

1. The organization shall hire someone and pay a monthly salary;
2. The organization hires an external DPO and pays an average of \$ 175,- excluding VAT per hour. But that can be better and cheaper!

When an organization consists of multiple branches, the DPO can be appointed centrally. At a competitive rate, Audittrail provides the entire organization with an full-time DPO, so that you comply with the GDPR. In this way, we relieve your entire organization for a very low investment per branch.

#### BRANCHES

These branches are required to have a Data Protection Officer.

- Automotive;
- Public authorities;
- Public organizations;
- Care institutions;
- Educational institutions;
- Organizations that process a large amount of personal data..

#### BENEFITS

- A DPO at your disposal all year round;
- Low investment costs;
- No internal “dedicated” employee needed, Audittrail arranges it for you;
- Free Helpdesk subscription.
